An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The following changes to the drawings have been approved by the examiner: Figs. 19 and 20 should be labeled "Prior Art". In order to avoid abandonment of the application, applicant must make these drawing changes. It was not seen as necessary, as the amendment is necessary to comply with 37 CFR 1.84, and is not seen as affecting the scope of the invention.

The following is an examiner's statement of reasons for allowance: the prior art fails to teach a pilot operated diaphragm valve as claimed with a buffer device interposed between a manually operated push rod member and the pilot valve.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
